PB900 - SETS CARBIDE BURS - Workshop

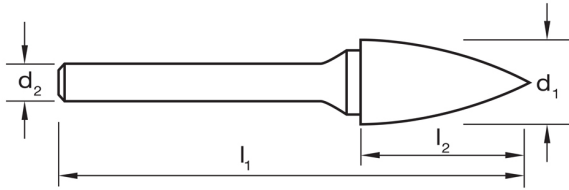

P&N Workshop Double Cut Carbide Burs are suitable for shaping or forming metal. For use in air & electric die grinders. The double cut bur allows for rapid stock removal in harder materials. The chisel tooth pattern not only minimises tool chatter but reduces the chip to a granular shape in most materials.

Features:

- Double cut burs for rapid stock removal in harder materials
- 1/4 shank made from S45C Steel
- Made from solid carbide, offering the ideal combination of hardness & toughness for high speed applications
